OFFICE OF PETITIONS
Assistant Commissioner for Patents
Washington, D.C. 20231

Reza Movahed

ADDRESS SS Santa Teresita
Irvine, CA 92606
February 24, 2005

Petition Under 37 C.F.R. Section 1.137(b)

The above-identified application became abandoned for failure to timely respond to a Non-Final Office Action mailed on July 1, 2004. Applicant hereby petitions for revival of this application.

The present application was invented by the Applicant, Reza Movahed. The Applicant assigned his rights to the University of California Irvine. Subsequently, this application was reassigned to the Applicant by virtue of the assignment agreement attached hereto.

In the course of changing ownership of the application, Applicant failed to notice that a response to the July 1, 2004 office action was not duly made and that the application had become abandoned. Applicant had unintentionally abandoned the application. Pursuant to 37 C.F.R. Section 1.137(b), Applicant is hereby submitting in support of this petition:

1. A petition fee of \$750, as set forth in 37 C.F.R. 1.17(m). The petition fee is provided on the enclosed credit card authorization form.
2. An assignment demonstrating that the Applicant, Reza Movahed, has the right to revive this application.

Because the present application was filed on January 23, 2002, a terminal disclaimer has not been included as a submission

with the petition. The entire delay in filing the required reply from the due date for the required reply until the filing of a grantable petition under 37 C.F.R. 1.137(b) was unintentional.

Please direct all future correspondence regarding this case to:

Reza Movahed

"Method and Apparatus to Remove Substances from Vessels of the Heart and Other Parts
of the Body to Minimize or Avoid Renal or Other Harm or Dysfunction"
UC Case No. 2001-078-2

Dear Dr. Movahed:

Pursuant to the University of California Patent Policy, you have disclosed to the UC Irvine Office of Technology Alliances an invention entitled "Method and Apparatus to Remove Substances from Vessels of the Heart and Other Parts of the Body to Minimize or Avoid Renal or Other Harm or Dysfunction," identified as UC Case No. 2001-078-2. In accordance with your request for a release of rights in this case, we have determined that the University will release its rights to this invention to you in accordance with the following agreement:

- 1) The invention was not made with the use of any Federal support or funds;
- 2) No further research or development of the invention is presently in progress or is contemplated by you or by others at your request using University funds or facilities;
- 3) You agree to provide the UC Irvine Office of Technology Alliances with a copy of the patent in the event it issues;
- 4) You agree to make full disclosure to the UC Irvine Office of Technology Alliances of any improvement you make with regard to the invention using University funds or facilities. Also, you understand such improvement will belong to The Regents and will be managed in accordance with University of California policy and practice;

- 5) You hereby grant The Regents a shop right and a royalty free license to make, have made, use, and import the invention for educational and research purposes;
- 6) You hereby grant The Regents the right to permit other educational institutions to make, have made, use, and import the invention for educational and research purposes.

Accordingly, The Regents hereby releases to you all The Regents' right, title, and interest in and to the invention as disclosed and described in UC Case No 2001-078-2.

Please sign below to acknowledge your acceptance of the terms of this agreement. Please return this letter to the UC Irvine Office of Technology Alliances (380 University Tower, 4199 Campus Drive, Irvine, CA 92697-7700) for signature on behalf of The Regents. An original document will be forwarded to you after execution.

Sincerely,

Linda S. Stevenson

RE: Disclosure and Record of Invention

"Method and Apparatus to Remove Substances from Vessels of the Heart and Other Parts
of the Body to Minimize or Avoid Renal or Other Harm or Dysfunction"
UC Case No. 2001-078-2

Dear Dr. Movahed:

Enclosed is a release of rights letter, in duplicate, for the subject case. If you accept these terms, please sign both letters and return them to the UC Irvine Office of Technology Alliances (380 University Tower, 4199 Campus Drive, Irvine, CA 92697-7700) for execution on behalf of The Regents of the University of California. Upon execution on behalf of the Regents, they will send you an original, executed letter for your files and they will send a copy to us for our files.

Thank you for your immediate attention to and prompt return of this document.

Sincerely,

Linda S. Stevenson
Manager, Patent Prosecution
